

Top Traffic Sites

(Do NOT Share)

These are our favorite traffic sites where you can get the most amount of subscribers. Over the past 2 years we've tested hundreds of lead sources trying to find what options gave us the lowest **Cost Per Subscriber**.

This is not just a simple "how-to." Traffic is the key to the kingdom of entrepreneurial success online!

With that in mind we decided to offer this secret pdf as a bonus but only for a limited time. So only a select few of you will have the opportunity to use our same traffic sources...

We divided the traffic into 3 categories:

Massive Traffic

This was all of the traffic sources that could get thousands of visitors within a few seconds but sometimes the quality was hit or miss.

High Quality Traffic

All the options in this category are the traffic sources that deliver really high quality subscribers but at a much higher cost per subscriber.

Depending on your needs this is still a good option, especially if you're promoting high ticket offers as an affiliate.

Recommended Traffic

These are our favorite traffic sources. A nice mix of volume and quality. Usually I try to use at least one of these traffic sources per week to build my email list.

Review

These traffic sources will hopefully help bring in a flood of subscribers and sales to your business. Once you find your optimal traffic strategy you will soon realize that there is UNLIMITED traffic available to you, especially when you can convert those subscribers to sales.

Finally, we spent the last few years spending tens of thousands of dollars testing different traffic sources so please don't share this with anyone outside of the community.

If you have any suggestions of traffic sources you think we should test please let us know!
